Title: Governing of Ideological Donations

Date Developed: 03/01/89

Policy Number: TS-02

The David D. Palmer Health Sciences Library will accept donations of materials from groups representing specific ideologies (religions, philosophies, political groups, etc.). To promote balance in the library's collection, such holdings are normally limited to five items from any one organization, exclusive of canonized scripture. Such donations will be added to the circulating collection, and must, therefore, be durable enough to withstand repeated circulations (i.e. a substantial glued or sewn binding).
